[View online](#)

Education

Web development with **Ruby on Rails** -- 2019 (The Hacking Project)

A program to build an **operational MVC web app with Ruby on Rails**, HTML, CSS and JavaScript and with Postgres database.

Business school **Master in Management** -- 2012-2016 (ESCP Europe)

General "Grande Ecole" degree including one semester in Berlin and another in Boston(US). Focus on corporate finance and financial planning & analysis.

Major courses: financial analysis, cost and decision, audit, supply chain management, operations management etc.

Bachelor in Translation -- 2008-2012 (Beijing Language and Culture University)

Skills

Ruby on Rails (Minitest), HTML, CSS, JavaScript(Ajax), **SQL** (Postgres), Python, git, Excel(VBA)

French, English, Mandarin

Project in Prod

Lucky Link (private project, repo on demand)

An "eventbrite-like" website to connect French private firms to local associations. It aims to build partnerships in leading public health campaigns and allow associations to manage their projects and receive notifications on their evolution. Lucky Link is the validating group project for The Hacking Project, it is 94% test-covered.

Also contribute to the translation of **Kubernetes docs** from English to French.

Previous Experiences

Two-year experience in **management control in international environment**. Familiar with sectors such as publishing, insurance, real estate and logistics.

Performance monitoring: Followed business performance on a regular basis from daily to annually, analyzed performance evolutions, elaborated recommendations.

Financial planning: Prepared annual budget according historical indicators, produced quantitative and qualitative financial and operational reportings for inner and executive use.

Profitability studies: Evaluated investment opportunities based on hypothesis and formulated investment recommendations.

Workshop animation: Organized brainstorming sessions to help associations and young businesses in social and solidarity (ESS) economy to diagnose and overcome specific challenges.

Pastime

Theater, museum and gallery, salon and folk dance, handcraft, volunteering
